

AVINASH DUBEY

Data Analyst | Power BI Developer | Noida, Delhi NCR

+91-7007682626 | dubeyavinash157@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with 3+ years of experience in SQL (T-SQL, CTEs, Window Functions, Stored Procedures), Power BI (DAX, Power Query), Python, and Advanced Excel, specializing in data analysis, dashboard development, KPI reporting, data modeling, and business intelligence across Retail, E-Commerce, and Consumer Goods domains. Delivered retail sales analysis covering \$20M+ in revenue with 46.9% YoY growth, while driving data validation, workflow automation, and SQL-based data warehousing initiatives. Leveraged AI-assisted workflows using Claude and ChatGPT to accelerate analysis and documentation while maintaining data quality and accuracy.

TECHNICAL SKILLS

Languages & Querying: SQL (T-SQL, MySQL, CTEs, Window Functions, Stored Procedures), Python (Pandas, NumPy)

Databases & Cloud: Snowflake (Data Warehousing, Querying), SQL Server (SSMS), MySQL

Data Visualization & BI: Power BI (DAX, Power Query, Power BI Service, RLS, Power BI Gateway, Data Visualization, Dashboard Development), Microsoft Excel (Power Pivot, XLOOKUP, Pivot Tables)

Data Engineering & Analysis: ETL, Data Extraction, Data Cleaning, Data Transformation, Data Validation, Data Integration, Data Quality, Exploratory Data Analysis (EDA), Reporting Automation, MIS Reporting, KPI Tracking & Reporting, Trend Analysis, Churn Analysis

Data Modeling: Dimensional Modeling (Star Schema, Fact & Dimension Tables)

Tools & Platforms: Jupyter Notebook, Git, GitHub, Workflow Automation, AI-Assisted Analytics (ChatGPT, Claude)

PROFESSIONAL EXPERIENCE

Data Analyst | i3 Infosoft Pvt. Ltd, Noida, U.P.

Jul 2023 – Present

- Owned end-to-end Power BI dashboard development — from SQL Server extraction and cleaning to Star Schema modeling, DAX, and Power Query — enabling self-service BI and KPI reporting for 10+ users across 3 departments.
- Built 20+ reusable DAX measures using CALCULATE, FILTER, SUMX, RANKX, and Time Intelligence functions for KPI, ranking, YoY, MoM, and YTD analysis.
- Implemented SQL Stored Procedures and optimized SQL Server T-SQL queries using CTEs, Window Functions, Joins, and Subqueries, reducing average query runtime by ~20%.
- Automated ETL and recurring reporting workflows using SQL and Power Query, cutting manual effort by 30–40% (~15 hrs/week) and improving efficiency.
- Transformed 100K+ records/month from SQL Server, Excel, and CSV files using Python (Pandas) and Power Query for downstream analytics.
- Designed interactive Excel dashboards using Power Pivot and XLOOKUP, enabling same-day report delivery and cutting preparation time by 20%.
- Published and managed Power BI reports in Power BI Service, configuring Scheduled Refresh, Row-Level Security (RLS), and Power BI Gateway connectivity to support reliable and secure reporting.
- Validated datasets and monitored KPI consistency across 4+ production dashboards, collaborating with 4 departments.

Data Specialist | Star Entertainment Production, New Delhi

Aug 2019 – Jun 2023

- Maintained daily production and business data in Microsoft Excel for a 10+ member production team, tracking 100+ records weekly and ensuring data integrity across operations.
- Produced 10+ daily and monthly MIS and business reports for 3 internal departments, coordinating with team leads to support planning and operational decisions.

KEY PROJECTS

Retail Sales & Customer Insights Dashboard

- Created a Power BI dashboard using Star Schema, DAX, and Power Query to monitor retail sales and customer performance KPIs.
- Analyzed \$20M+ in sales data and identified a 46.9% YoY growth trend, enabling leadership to make faster data-driven decisions while reducing manual reporting time by 3–4 hours daily.

Customer Churn & Revenue Risk Analysis

- Built a Python-SQL pipeline to extract, clean, and reload customer transaction data into SQL Server, integrating multi-source datasets for customer risk scoring.
- Identified 2,389 at-risk customers (inactive 90 days) with a 33.5% cancellation rate, uncovering \$2.5M in revenue at risk through customer segmentation and payment failure analysis.

EDUCATION

Bachelor of Science in Mathematics

Chhatrapati Shahu Ji Maharaj University, Kanpur, U.P. | 2012 – 2015
